

The CPD programme for SAJCH is administered by Medical Practice Consulting.  
CPD questionnaires must be completed online at [www.mpconsulting.co.za](http://www.mpconsulting.co.za)

## True (T) or false (F):

### Regarding monitoring of well-baby clinic visits

1. Visits to healthcare clinics are only free for children <6 years of age and pregnant or lactating mothers
2. Only one-third of infants attending well-baby clinics had their milestones recorded in the Road-to-Health Booklet.
3. An assessment of oral health is not a requirement according to the Road-to-Health Booklet.

### Regarding pulmonary hydatidosis

4. The definitive host of *Echinococcus granulosus* is the sheep.
5. Pulmonary hydatidosis in children is associated with eosinophilia in less than half the patients.
6. Surgical enucleation of pulmonary cysts, together with pre- and postoperative use of albendazole, is recommended for management of the majority of patients.

### Regarding cerebral palsy (CP) in Nigeria

7. In African countries, the prevalence of CP varies between 1.5 and 10 per 1 000 live births
8. CP typically results from cerebral insults occurring in children <5 years of age
9. The majority of children presenting with CP were first-born children.

### Regarding end-stage renal failure in children on dialysis

10. At Charlotte Maxeke Johannesburg Academic Hospital, children on peritoneal dialysis are older than those on haemodialysis.
11. The health-related quality of life scores were similar between those children on haemodialysis and those on peritoneal dialysis

### Regarding the use of the Road-to-Health Card (RTHC) by doctors

12. The RTHC should be requested by health professionals at each health service visit
13. Relevant new information in the hospital record was well recorded on the RTHC.

### Regarding sickle cell disease in children in Johannesburg

14. Among South African (SA) children sickle cell disease is rare.
15. According to the UN High Commissioner for Refugees, >500 000 asylum seekers and refugees resided in SA in 2013.
16. The blood smear in sickle cell disease typically shows macrocytic anaemia.

### Regarding HIV-associated nephropathy in children

17. Normal serum creatinine levels in children are not influenced by muscle mass.
18. Kidney injury molecule-1 is a transmembrane glycoprotein of dilated proximal tubular cells.

### Regarding neonatal haemolytic anaemia

19. Red cell membrane disorders present as an immune-mediated haemolytic anaemia in neonates.

### Regarding sphenoidal mucocoeles in children

20. The sphenoidal sinus only undergoes pneumatization between 8 and 10 years of age.

A maximum of 3 CEUs will be awarded per correctly completed test.  
CPD questionnaires must be completed online via [www.mpconsulting.co.za](http://www.mpconsulting.co.za).  
After submission you can check the answers and print your certificate.  
Accreditation number: MDB015/031/01/2018 (Clinical)
